

Career Objective

I am a dedicated Full-Stack Software Developer with expertise in ASP.NET. I am proficient at solving complex problems and developing scalable, high-performance applications. My dedication and collaborative spirit make me a valuable team member, committed to delivering high-quality solutions. I thrive on applying my technical expertise to solve real-world problems while continuously growing within an innovative, forward-thinking organization. I am adept at leveraging the full .NET ecosystem to build efficient software.

Experiences

Junior Software Engineer (August 2025 – July 2026)
Biometric & Sales Commission Team, NAAS Solutions Limited

ASP.NET Developer (May 2025 – July 2025)
Internship (Part-Time & Remote), Itransition Group

Certifications

Cross-Platform Applications (ASP.NET, Angular, React)
IsDB-BISEW IT Scholarship (June 2024 – May 2025)

Web Development (PHP-Laravel)
BITM (January 2024 – June 2024)

Projects

- Bio RPT Service** - An automated .NET backend service that fetches Oracle data to generate AES-encrypted CSV reports.
- EC Login Web** - Developed a secure, scalable login and identity management Web API using ASP.NET Core & EF Core.
- Dump Data** - A scheduled .NET service that extracts Oracle data, encrypts it with AES, generates automated reports.
- Airflow DAGs** - Developed Airflow DAGs to automate scheduled file transfers & live server data backups to SFTP location.
- QC Web Portal** - A real-time web application for automated testing, quality control workflows, and compliance tracking.
- Deregistration** - Developed a web portal to process bulk SIM deactivations via CSV upload, complete with data validation.

Technical Skills

- Language** - C#, SQL, JavaScript (ES6+), TypeScript, HTML5, CSS3, PHP, Python
- Frontend** - Angular, React, Next.js, Vue.js, Blazor, .NET MAUI, jQuery, AJAX, Tailwind CSS, Bootstrap
- Backend** - ASP.NET Core (Web API, MVC, Razor), EF Core, LINQ, ADO.NET, Node.js, Express, Laravel
- Database** - Microsoft SQL Server, PostgreSQL, MySQL, MongoDB, Redis, Oracle (PL/SQL)
- Cloud & DevOps** - Linux, Docker, Apache Airflow, Grafana, Git, Git Bash, GitHub, GitLab, IIS, Nginx
- Testing & Tools** - REST APIs, Postman, Swagger, Crystal Reports, XML, xUnit, NUnit, Jira etc.

Educations

IELTS (Academic) Overall – 6.0/9.0 IDP (July, 2026)	BSc in Botany CGPA – 3.10/4.00 JnU (2019 – 2023)	HSC in Science GPA – 4.25/5.00 SRCC (2016 – 2018)	SSC in Science GPA – 5.00/5.00 ABNM (2014 – 2016)
